

Smoking Kills!

Tobacco causes cancer, heart disease and strokes. Globally, it kills over 5,000,000 people every year.

Passive smoking or second-hand smoking is the inhaling of smoke from tobacco products used by others. Second-hand smoke kills 600,000 people each year globally. It is as harmful as smoking itself!

Spending two hours in a smoky room is equal to smoking four cigarettes.

Inhaling tobacco smoke causes wrinkles and premature ageing of the face!

The youth of Pakistan are being targeted by the tobacco industry. Approximately 1200 young Pakistanis between the ages of 6 and 15 take up smoking every day.

85% of adults, who smoke, started smoking before their 18th birthday.

In Pakistan tobacco kills about 100,000 persons every year. This is 274 deaths per day!

Fortunately, all these deaths are preventable! You can save lives!

Please understand the Tobacco Control

Law.

It just takes a few minutes!

“Prohibition of Smoking and Protection of Non-Smokers Health Ordinance, 2002” and Rules made under this Law.

Section-5 and SRO 51 (KE)/2009, declare all places of public work or use as completely smoke free.
